HALLE (SAALE).

Handwritten ledger page with a grid of approximately 10 columns and 20 rows. The text is faint and mostly illegible due to fading. The header row contains some faint, possibly mirrored, text that might be "RECEIVED" or similar. The table contains various handwritten entries, including numbers and short phrases, though they are too faded to transcribe accurately.

Blank ledger page with a grid of approximately 10 columns and 20 rows. The page is mostly empty, with some faint vertical lines visible. There are a few small, dark spots or stains along the right edge of the page.
